

PREP TO YEAR 4

There is no requirement for parents to purchase an iPad for their student.

Students will use College iPads when required. Mueller College has a large number of iPads designated for use by lower primary students. The iPads will be used in class for research, literacy practice, mathematics exercises, technology classes and to meet other educational outcomes.

YEARS 5 - 9

There is no requirement for parents to purchase an iPad (with keyboard).

The iPad will be issued during the first week of school and returned at the end of the year. Students will not retain the device during the Christmas vacation. The devices are fully managed by the College using Apple School Manager. The necessary apps will be deployed to the devices when needed.

YEARS 10 - 12

Students are required to bring their own device

BYOD – Bring Your Own Device. Given the increased technology requirements and student's own personal preference, students in Years 10-12 will be required to bring their own device. Both Windows laptop's and Mac laptop's are acceptable. These devices must meet a few minimum requirements for Storage (256GB SSD), Memory (8GB) and be able to support the latest Operating System. For subjects which require standards beyond these minimum requirements, the school provides devices for students to work on during class time. These subjects include Digital Solutions and Film, Television & New Media.
